Inmate/Resident/Detainee Interviews

Random Inmate/Resident/Detainee Interviews

<p>53. Enter the total number of RANDOM INMATES/RESIDENTS/DETAINEES who were interviewed:</p>	<p>15</p>
<p>54. Select which characteristics you considered when you selected RANDOM INMATE/RESIDENT/DETAINEE interviewees: (select all that apply)</p>	<p><input checked="" type="checkbox"/> Age</p> <p><input checked="" type="checkbox"/> Race</p> <p><input checked="" type="checkbox"/> Ethnicity (e.g., Hispanic, Non-Hispanic)</p> <p><input type="checkbox"/> Length of time in the facility</p> <p><input checked="" type="checkbox"/> Housing assignment</p> <p><input checked="" type="checkbox"/> Gender</p> <p><input type="checkbox"/> Other</p> <p><input type="checkbox"/> None</p>

<p>55. How did you ensure your sample of RANDOM INMATE/RESIDENT/DETAINEE interviewees was geographically diverse?</p>	<p>A random number generator was used to randomly choose a letter of the alphabet. First, the auditor verified that this method yielded at least one inmate from as many of the 28 housing units as possible. Then he reviewed the gender / race / ethnicity / gender the identified 15 inmates. Comparing the race / ethnicity to the facility's overall percentages, the auditor eliminated the last chosen inmate who was of that gender / race / ethnicity and replaced them with the next detainee alphabetically who was of that gender / race / ethnicity. One inmate refused to be interviewed. He was replaced by the next person alphabetically who was of the same gender / race / ethnicity.</p>
<p>56. Were you able to conduct the minimum number of random inmate/resident/detainee interviews?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>57. Provide any additional comments regarding selecting or interviewing random inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):</p>	<p>None.</p>
<p>Targeted Inmate/Resident/Detainee Interviews</p>	
<p>58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:</p>	<p>15</p>

As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".

<p>60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:</p>	<p>6</p>
<p>61. Enter the total number of interviews conducted with inmates/residents/detainees with a cognitive or functional disability (including intellectual disability, psychiatric disability, or speech disability) using the "Disabled and Limited English Proficient Inmates" protocol:</p>	<p>1</p>

Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</p>	<p><input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.</p> <p><input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.</p>

<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>No apparently blind inmates were observed on the site review.</p>

<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>By policy, inmates are not placed in segregation solely for the purpose of protecting them from the risk of victimization.</p>
<p>70. Provide any additional comments regarding selecting or interviewing targeted inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews):</p>	<p>In order to reach the total number of targeted inmates, the auditor oversampled the categories which had more available inmates. SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?

Yes

No

Was the site review an active, inquiring process that included the following:

85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?

Yes

No

86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?

No

87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?

Yes

No

<p>88. Informal conversations with staff during the site review (encouraged, not required)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</p>	<p>Very large facility, designed for 1,750 inmates, currently used for an average daily population of 384.</p>

Documentation Sampling

Where there is a collection of records to review—such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files—auditors must self-select for review a representative sample of each type of record.

<p>90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).</p>	<p>No text provided.</p>

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	1	0	1	0
Staff-on-inmate sexual abuse	0	0	0	0

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

A review of</p>

records indicated that four of ten randomly chosen inmates had not received this reassessment. These results were consistent with information provided in inmate interviews.

The auditor's review of this evidence leads him to the conclusion that this standard was not in full compliance at the time of the onsite audit. During a corrective action period of ninety days, the facility was able to develop procedures to ensure that the screening and re-screening occurred during the required time frames. A review of the records of 20 randomly chosen inmates indicated that these screenings are occurring within the time frames required by the standard.

In the auditor's judgment the facility is now in full compliance with this standard.

Inmates learn that they can report sexual abuse or harassment in multiple ways, including:

- Inmate handbook
- Posted signs
- Intake briefings
- Brochures and pamphlets

The internal ways include:

- Verbal report to a correctional officer or other staff
- Written report via inmate communication form to any staff person
- Filing an offender grievance

The external ways include:

- Letter to the Agency PREA Coordinator
- Via a third-party, such as a family member or other community member

Policy specifies that a written complaint can be submitted anonymously; an anonymous report is accepted and investigated. Inmate interviews consistently

verified that inmates know of the various internal and external ways of reporting. Staff interviews confirmed that they understand the importance of documenting verbal reports and the requirement to promptly pass all reports up the chain of command to be addressed. Staff interviews also verified their knowledge of policy regarding their own methods of privately reporting sexual abuse and harassment of inmates.

Policies allow for such reporting to be made anonymously and confidentially. Line staff interviews indicated that the normal means of notification is to shift commander, supervisor or the facility duty officer. Staff also indicated that they could report to others in the administration, including the Department Director, as opposed to a strict interpretation of the chain of command.

The auditor's review of this evidence leads him to the conclusion that this standard is met in policy, procedure, and practice.

Auditor Overall Determination: Meets Standard

Auditor Discussion

Documents

- DC DOC Policy and Procedure 3350.2I, Elimination of Sexual Abuse, Sexual Assault, and Sexual Misconduct
- Facility responses to Pre-audit questionnaire
- Training records of staff investigators
- Four randomly chosen completed investigation reports

Interviews

- Staff interviews
- Investigator interview

Department policies and procedures require the following:

- Prompt, thorough, and objective investigations
- Investigation of all allegations, including those from third parties
- Use of available physical and DNA evidence and available electronic monitoring data (video)
- Interviews of alleged victims, suspected perpetrators, and witnesses
- Review of prior reports and complaints of sexual abuse involving the suspected perpetrator
- Assessment of the credibility of an alleged victim, suspect, or witness on an individual basis
- Efforts to determine whether staff actions or failures to act contributed to the abuse

Further, department policies and procedures require

- Investigations performed by persons who have received specialized training to conduct such investigations
- Written reports which contain a description of the physical evidence and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings
- That the departure of an alleged abuser or victim from the employment or custody of the agency does not provide a basis for terminating an investigation

Staff interviews, and review of four investigations from the last 12 months indicate that these policies and procedures are consistently followed.

Of the four cases reviewed, three were allegations of sexual misconduct by a staff person; the investigations of these complex cases were completed within 64 to 194 days. The inmate to inmate case was completed in 63 days.

Records retention policies require that such records must be retained.

The auditor's review of this evidence leads him to the conclusion that this standard is met in all substantial ways in policy, procedure, and practice.
