AUDIT FINDINGS

NARRATIVE

The onsite PREA audit of the Corrections Corporation of America - Correctional Treatment Center in Washington, D.C. was conducted June 27-29, 2016 by Department of Justice Certified PREA Auditor Rodney P. Bivens. The auditor wishes to extend his deepest appreciation to Warden Charlie Peterson and his staff for their professionalism, hospitality, and kindness. The auditor also wishes to compliment the Corrections Corporation of America's PREA Coordinator Lisa Hollingsworth and the facility PREA Compliance Manager Walter B. Fulton III for their outstanding work in organizing the files that were provided to the auditor in advance of the audit. This enabled the audit to move forward very efficiently.

Prior to this audit the facility provided to the auditor all policies, procedures, and facility documentation related to each standard for review. The auditor and the PREA Coordinator had ongoing communication for several weeks prior to the audit to prepare for the on-site visit. The facility supplied a list of inmate names sorted by housing units, disabilities, and special designations, as well as a list of facility staff names to the auditor. From these lists the auditor selected, at random, a sampling of inmates and staff to be interviewed during the on-site visit. Due to the size of this facility the sampling size for both inmates and staff was elevated to ensure consistency in training and implementation of the PREA standards. The sampling size for inmates included at least two inmates from each individualized housing unit pod. This decision was made to ensure all inmates throughout the facility were receiving the same information and education related to all aspects of the PREA program.

The on-site audit began with an entrance meeting being conducted on Monday, June 27, 2016 at 8:45 a.m. in the administration conference room. The following staff attended the entrance meeting:

Warden Charlie Peterson
Assistant Warden Walter Fulton
Lisa Hollingsworth, PREA Coordinator
Aniceka Points, Unit Manager
Deitra Jennings, Unit Manager
Laretta Johnson, Chief of Unit Management
Shameka Bivens, Quality Assurance Manager
Evan Owens, Investigator
Rhonda Williams, Human Resources Manager
Louis Kates, Facility Controller
Nicole Wallace, Learning and Development Manager

Following the entrance meeting, the auditor conducted a comprehensive site review that began at approximately 9:10 a.m. and continued throughout the two days. During the site review the auditor reviewed camera placement, blind spots, staff placement, and documentation to assist in determining standard compliance. While touring the facility the auditor observed the notices of this PREA audit in all the buildings, as well as posters that called attention to the agency's Zero Tolerance Policy and how to report allegations of sexual abuse and sexual harassment. Random staff and inmate interviews were conducted in private offices provided at each housing unit during the site review as well. The following staff accompanied the auditor on the site review:

Warden Charlie Peterson
Assistant Warden Walter Fulton
Lisa Hollingsworth, PREA Coordinator
Laretta Johnson, Chief of Unit Management
Shameka Bivens, Quality Assurance Manager

All housing units, day rooms, inmate program areas, work areas, and all other inmate accessible areas were toured during the site review. While touring several inmates and staff were questioned about their knowledge of PREA standards, procedures for reporting, services available, and their responsibilities. All staff and inmates informally interviewed during the tour acknowledged receiving training and procedures for reporting sexual abuse, sexual harassment, and/or retaliation for reporting.

A total of 47 staff members were interviewed during the course of this audit. Staff interviews consisted of: 16 randomly selected correctional security staff members covering all shifts, 2 volunteers, 3 contract employees, 4 intermediate or higher level supervisors, 14 specialized staff members, and 8 employees informally selected during the facility tour. All staff interviewed were well versed in their respective areas of responsibility regarding PREA and affirmed compliance with the applicable PREA standards. There is no SAFE or SANE staff at the facility; they are made available at the MedStar Washington Hospital Center in Washington, D.C. Staff interviewed were well versed as well in their responsibilities regarding procedures for reporting sexual abuse, sexual harassment, staff negligence, and retaliation for reporting. When questioned about evidence preservation, all staff responses reflected knowledge of agency policies and procedures.

There were 47 inmates interviewed during the on-site visit. These inmates consisted of: 36 inmates selected at random and 11 informally selected during the facility tour. There were 5 of the 36 inmates selected at random requiring specialized interviews broken down as follows: 2 limited English proficient inmates, 1 deaf or hearing impaired and 2 self-reported LGBTI inmates. All of the inmates interviewed acknowledged receiving PREA training and written materials (posters, pamphlets, and inmate handbooks) outlining the agency's zero tolerance policies towards sexual abuse, sexual harassment, and retaliation for reporting, as well as the procedures for reporting. The limited English proficient inmates interviewed confirmed receiving the PREA training and written materials in a language they could understand. All inmates interviewed felt if they had to file a PREA complaint the facility would respond appropriately to their complaint and that all PREA complaints were taken very serious by staff at this facility.

The auditor selected and carefully examined 14 personnel files, 12 staff training files, and 3 volunteer\contractor files. The personnel and volunteer\contractor files were very well organized and contained all the necessary background check information and signed statements regarding previous sexual misconduct described in the standards. The training records were also very complete and included written documentation that staff and volunteers received the required training and understood what was being trained.

The auditor also reviewed 11 offender files and saw documentation of offender education, as well as documentation of the initial risk screenings, the 30-day re-screenings, and screenings upon additional information being completed as required by the standard.

In the twelve months preceding the audit, Corrections Corporation of America - Correctional Treatment Center had received and investigated a total of ten PREA complaints broken down as follows:

Number Received:	Description of Complaint:	Offender:	Investigative Results:
3	Sexual Abuse (Intentional Touching)	Inmate	1 Unsubstantiated 1 Substantiated 1 Unfounded
2	Sexual Abuse (Penetration)	Inmate	2 Unsubstantiated
1	Sexual Abuse (Contact)	Inmate	1 Substantiated
1	Sexual Harassment	Inmate	1 Substantiated
3	Sexual Assault (Intentional Touching)	Employee	3 Unfounded

All investigative files were reviewed during the onsite visit and appeared to document thoroughly the investigative process per agency policy. Criminal investigative referrals were documented and proper referrals were made when warranted. All sexual abuse cases warranting a criminal investigation were referred to the Metropolitan Police Department of the District of Columbia who is responsible for investigating each case for potential criminal activity.

At the conclusion of the on-site visit an exit meeting was held to discuss the audit findings. The following people were in attendance:

Warden Charlie Peterson
 Assistant Warden Walter Fulton
 Lisa Hollingsworth, PREA Coordinator
 Aniceka Points, Unit Manager
 Deitra Jennings, Unit Manager
 Laretta Johnson, Chief of Unit Management
 Shameka Bivens, Quality Assurance Manager
 Evan Owens, Investigator
 Rhonda Williams, Human Resources Manager
 Louis Kates, Facility Controller
 Jackie Smith, Maintenance Manager

During the exit meeting the auditor explained the process that would follow the on-site visit. The auditor also explained that all areas found to not meet the standards during the on-site visit must be corrected and he would be working closely with the PREA team to accomplish compliance. Finally, the auditor acknowledged the willingness of all staff involved to accomplish PREA compliance and advised the PREA team of their requirements to post the final report on the facility website once compliance with all standards was achieved.

DESCRIPTION OF FACILITY CHARACTERISTICS

The Corrections Corporation of America - Corrections Treatment Facility was built in 1992, by the Washington D.C. Department of Corrections as an adult correctional treatment facility. In 1997, the Department of Corrections contracted with Corrections Corporation of America to manage and operate the facility. In January of 2003 the facility's mission changed from an adult correctional facility into a detention facility.

The Corrections Corporation of America - Corrections Treatment Facility consists of five multi-story buildings immediately adjacent to each other. The building appears to be one large structure. Each section is connected via secure corridors, often with only a firewall as separation. It is a third generation, modular design with direct supervision of inmates. The security of the facility is accomplished by way of double fences, razor wire, a perimeter wall, and cameras. Each building contains separate areas for housing units, administrative functions, programs, and other services that contribute to operation of the facility.

The Corrections Corporation of America - Corrections Treatment Facility has rated capacity of 1,496, but is limited by contract to 1,432. There are 26 multiple occupancy cell housing units and 48 segregation cells. The Corrections Corporation of America - Corrections Treatment Facility is a receiving facility. Inmates are booked and released only at the adjacent Department of Corrections facility. Inmates who enter the Corrections Corporation of America - Corrections Treatment Facility have been medically screened. Building "A" houses administration, training, maintenance, personnel, laundry, the infirmary, and a medical observation unit. Building "C" has nine separate housing units. Building "D" houses general population male inmates. Building "E" houses the female population.

The Corrections Corporation of America - Correctional Treatment Center's stated mission is: " to provide optimum support to our government partner, the District of Columbia Department of Corrections by delivering high quality services in the areas of inmate transportation, housing, administration, and programming as mutually agreed by contract. In our capacity as the primary overflow to the District of Columbia jail, we strive to maintain the highest quality of life standards as set forth by the American Correctional Association." Corrections Corporation of America values are "having PRIDE in all we do". It was evident the staff at the Corrections Corporation of America's - Correctional Treatment Center were committed to excellence in corrections, by providing a dedicated team of professionals whose focus is on the enhancement of the quality of life through self-improvement opportunities for the inmates entrusted to their care.

SUMMARY OF AUDIT FINDINGS

The results of the Corrections Corporation of America - Correctional Treatment Center PREA audit are listed below:

Number of standards exceeded: 4

Number of standards met: 37

Number of standards not met: 0

Number of standards not applicable: 2

Standard 115.11 Zero tolerance of sexual abuse and sexual harassment; PREA Coordinator

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

115.11 (a) The Corrections Corporation of America - Correctional Treatment Center staff follows the Corrections Corporation of America PREA policy 14-2 which mandates a zero tolerance for all forms of sexual abuse and sexual harassment. This policy outlines the agency’s approach to preventing, detecting, and responding to such conduct. Therefore, the facility demonstrated compliance with this part of the standard during this audit.

115.11 (B) and (C) The agency employs an upper-level, agency-wide PREA Coordinator. PREA policy 14-2 pages 1 and 2 outlines the responsibilities of the PREA Coordinator and the PREA Compliance Manager. Mrs. Lisa Hollingsworth is the agency-wide PREA Coordinator at Corrections Corporation of America - Correctional Treatment Center. Lisa was appointed as the agency-wide PREA Coordinator on May 06, 2014 and was assisted by PREA Compliance Manager Walter Fulton during this audit. The facility provided the auditor with the organizational chart showing the PREA Coordinator position as an upper-level, agency-wide position. Lisa is very knowledgeable of the PREA standards and actively assists the facility with compliance. Mrs. Hollingsworth has the authority to develop, implement, and oversee PREA compliance. She is actively updating the facility as new Frequently Ask Questions (FAQ’s) results are published on the PREA Resource Center website.

During interviews with the PREA Coordinator and the PREA Compliance Manager, both indicated they had sufficient time and authority to coordinate the facility’s efforts to comply with the PREA standards as required. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Standard 115.13 Supervision and monitoring

- Exceeds Standard (substantially exceeds requirement of standard)

- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

Based on staff interviews, review of documentation provided and review of Corrections Corporation of America - Correctional Treatment Center PREA policy, 14-2, pages 8, 9 and 10, sections D and E. The following delineates the audit findings regarding this standard:

115.13 (a) The facility has documented and made its best efforts to comply on a regular basis with a staffing plan that provides for adequate levels of staffing as described and required by this standard. The established staffing plan uses the criteria found in the standard 115.13 (a) to include the physical layout of the facility, composition of the residents housed, the prevalence of substantiated and unsubstantiated incidents of sexual abuse, and any other relevant factors identified. Video monitoring has been deployed to assist with the protection of offenders against sexual abuse at this facility. The staffing levels are monitored daily by review of shift rosters. Therefore, the facility demonstrated compliance with this part of the standard during this audit.

115.13 (b) The facility has procedures in place to ensure all deviations are covered by overtime or notification must be documented on "Notice to Administration" form 5-1B and submitted to the Warden outlining the reason(s) for the deviation. There has been one deviation reported where the staffing plan had not been complied with in the past twelve months, as confirmed by written documentation and during interview with the Warden. Therefore, the facility demonstrated compliance with this part of the standard during this audit.

115.13 (c) The staffing plan is reviewed annually by the PREA Manager and forwarded to the PREA Coordinator and Warden for review. It is then forwarded to the Vice President of Facility Operations for signature and approval of any recommendations made which would include changes to policy and procedures, physical plant, video monitoring, or staffing levels. The last Annual Staffing Plan assessment was completed on March 30, 2016. Therefore, the facility demonstrated compliance with this part of the standard during this audit.

115.13 (d) Based on Corrections Corporation of America - Correctional Treatment Center PREA policy 14-2, section E on pages 9 and 10, staff interviews, and documentation provided. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Based on staff interviews, review of documentation provided, facility tour, and review of Corrections Corporation of America - Correctional Treatment Center policy, 18-101, pages 1 and 2, sections B and C. The following delineates the audit findings regarding this standard:

115.14 (a) The facility does not place youthful inmates in housing units where youthful inmates have sight, sound, or physical contact with any adult inmate through use of a shared dayroom or other common space, shower area, or sleeping quarters. Therefore, the facility demonstrated compliance with this part of the standard during this audit.

115.14 (b) Corrections Corporation of America - Correctional Treatment Center ensures that during use of any area outside the youthful offender housing unit that staff provides the following as required by this part of the standard:

- (1) they maintain sight and sound separation between youthful inmates and adult inmates, and/or
 - (2) they provide direct staff supervision when youthful inmates and adult inmates have sight, sound, or physical contact.
- Therefore, the facility demonstrated compliance with this part of the standard during this audit.

115.14 (c) Corrections Corporation of America - Correctional Treatment Center makes its best efforts to avoid placing youthful inmates in isolation to comply with this provision. Absent exigent circumstances, the facility does not deny youthful inmates daily large-muscle exercise and any legally required special education services to comply with this provision. Youthful inmates also have access to other programs and work opportunities to the extent possible. Therefore, the facility demonstrated compliance with this part of the standard during this audit.

Standard 115.15 Limits to cross-gender viewing and searches

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

115.15 (a) Corrections Corporation of America - Correctional Treatment Center PREA policy 14-2, section K on pages 15 and 16 outlines offender searches including searches of transgender and intersex offenders. The review of training curriculums and staff interviews revealed cross gender strip searches are prohibited except in exigent circumstances and must be documented on “Notice to Administration” form 5-1B when conducted. There have been no documented cross-gender visual body cavity or strip searches reported in the past 12 months. Therefore, the facility demonstrated compliance with this part of the standard during this audit.

115.15 (b) Corrections Corporation of America - Correctional Treatment Center PREA policy 14-2, section K, 1, b on page 16 prohibits male employees from frisk/pat searches of female inmates/residents except in exigent circumstances. Staff interviews confirmed knowledge and compliance with this directive of policy. Therefore, the facility demonstrated compliance with this part of the standard during this audit.

115.15 (c) Corrections Corporation of America - Correctional Treatment Center PREA policy 14-2, section K on pages 15 and 16 prohibits frisk/pat searches of the female inmates by male staff and requires that all cross-gender searches in exigent circumstances be documented on the “Notice to Administration” form 5-1B. There have been no documented cross-gender searches reported during the past 12 months confirmed by administrative staff interviews. Therefore, the facility demonstrated compliance with this part of the standard during this audit.

115.15 (d) Corrections Corporation of America - Correctional Treatment Center PREA policy 14-2, section K on pages 15 and 16 outlines that inmates shall be permitted to shower, perform bodily functions and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks or genitalia. The inmates confirmed during interviews they have privacy when showering, using the toilets and while changing their clothes. Corrections Corporation of America - Correctional Treatment Center PREA policy 14-2, section K on pages 15 and 16 also requires staff of the opposite gender to announce their presence prior to entering the housing units. Inmate and staff interviews revealed that opposite gender announcements were common practice at this facility and reminders of this requirement are posted on the entry doors of all housing units exceeding the requirements of this part of the standard during this audit.

115.15 (e) Based on Corrections Corporation of America - Correctional Treatment Center PREA policy 14-2, section K on pages 15 and 16, training curriculum provided and staff interviews the facility prohibits staff from physically examining transgender or intersex inmates for the sole purpose of determining genital status. If the inmate’s genital status is unknown, it is determined during conversations with the

inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. Therefore, the facility demonstrated compliance with this part of the standard during this audit.

115.15 (f) Based on Corrections Corporation of America - Correctional Treatment Center PREA policy 14-2, section K on pages 15 and 16, training curriculum provided, staff training file reviews, and staff interviews the facility trains security staff to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. Therefore, the facility demonstrated compliance with this part of the standard during this audit.

Standard 115.16 Inmates with disabilities and inmates who are limited English proficient

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Based on Corrections Corporation of America - Correctional Treatment Center PREA policy 14-2, pages 13 and 14, section I, review of the lesson plans, and review of Language Line contract, as well as staff and inmate interviews. The following delineates the audit findings regarding this standard:

115.16 (a) The Corrections Corporation of America - Correctional Treatment Center PPEA policy 14-2 mandates the agency to take appropriate steps to ensure inmates with disabilities (including, for example, inmates who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of its efforts to prevent, detect, and respond to sexual abuse and sexual harassment, including steps to provide interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. PREA handouts, PREA postings, PREA education video, and the inmate handbook are provided in both English and Spanish. A TTY phone is available at this facility. During interviews with the inmates identified to meet the aspects of this standard, they all confirmed having received training and materials they could understand. The inmates and staff also confirmed that interpretive services are available when needed. Therefore, the facility demonstrated compliance with this part of the standard during this audit.

115.16 (b) The Corrections Corporation of America - Correctional Treatment Center PREA policy mandates the agency to take reasonable steps to ensure meaningful access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient, including steps to provide interpreters who can interpret effectively accurately and impartially. Language Line Interpreter Services and/or staff interpreters are used to translate at this facility. There were two Spanish speaking inmates interviewed during the on-site visit and they confirmed during interviews receiving all written PREA information and viewing the Spanish version of the Corrections Corporation of America PREA DVD. The inmates and staff also confirmed that interpretive services are available when needed. Therefore, the facility demonstrated compliance with this part of the standard during this audit.

115.16 (c) Corrections Corporation of America - Correctional Treatment Center does not rely on inmate interpreters, inmate readers, or other types of inmate assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate's safety. During this audit cycle there were no instances where an inmate interpreter had to be utilized. Therefore, the facility demonstrated compliance with this part of the standard during this audit.
