The average length of stay to release for men was 96.45 days. Half of men who were released stayed fewer than 23.74 days, the median length of stay to release.

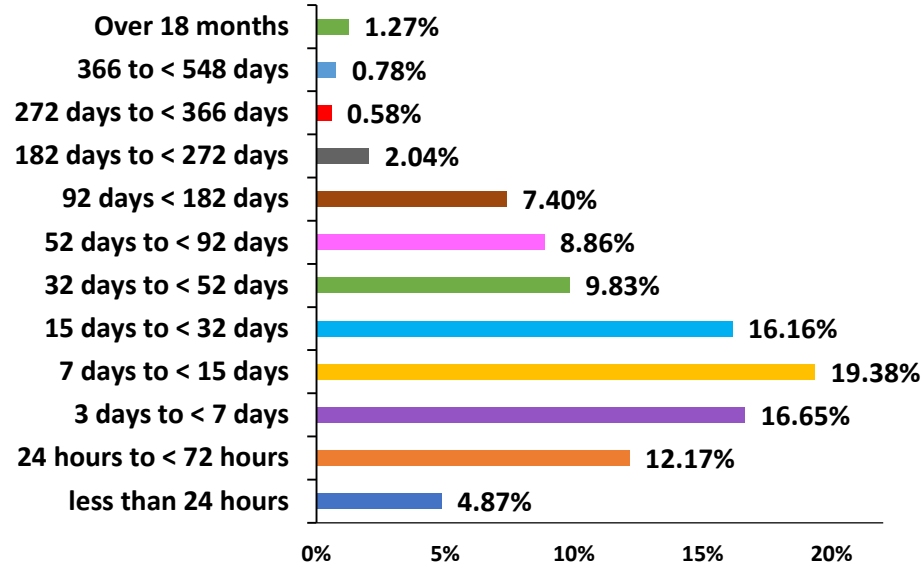

Of men who were released, 56.80% were released to the community. Another 21.86% were removed by the USMS to Northern Neck, USMS to federal facilities, or USMS GB. About 16% were removed by all other jurisdictions.

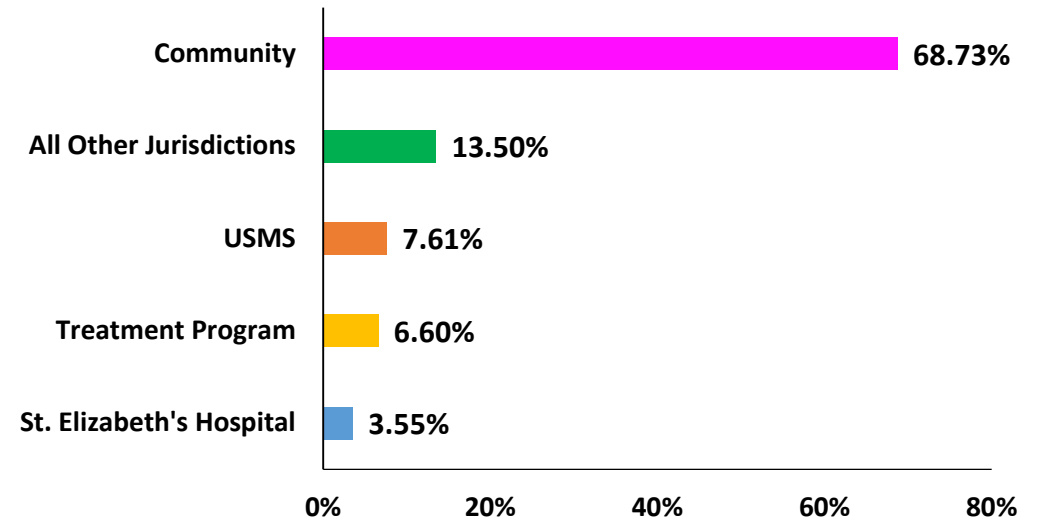

# FY 2024 Releases by LOS for Women

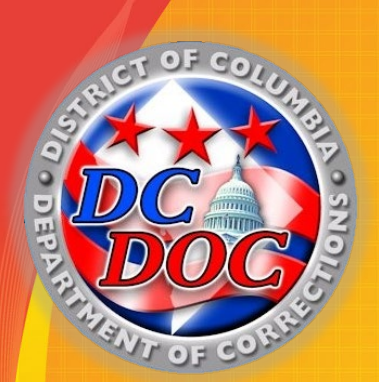

The average length of stay to release was 45.5 days for women. Half of all women who were released stayed fewer than 13 days, the median length of stay.

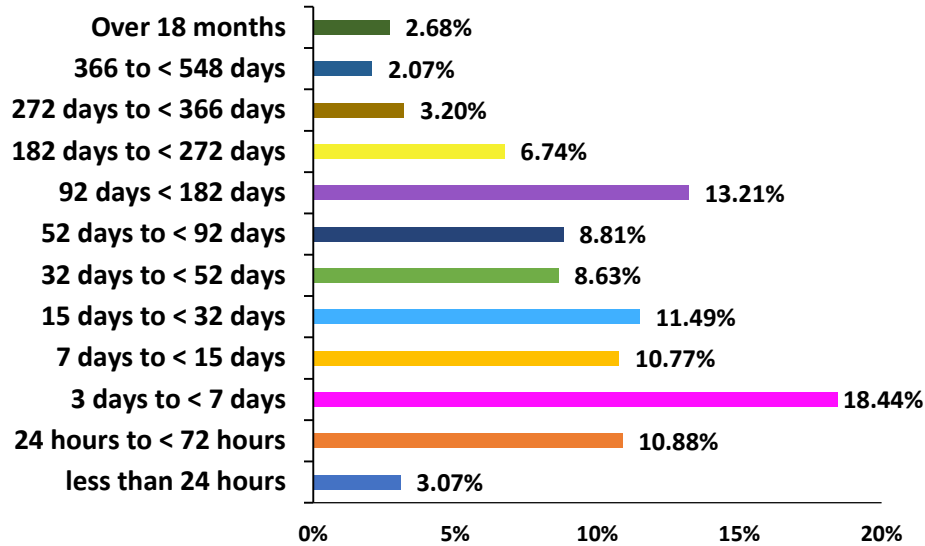

About 68.7% of women were released to the community, another 10.2% were released to St. Elizabeth's Hospital or treatment programs. About 87.6% were removed by USMS, USMS GB or to Northern Neck by the USMS. About 13.5% were released to other jurisdictions.

## Custody of Release Women FY 2024

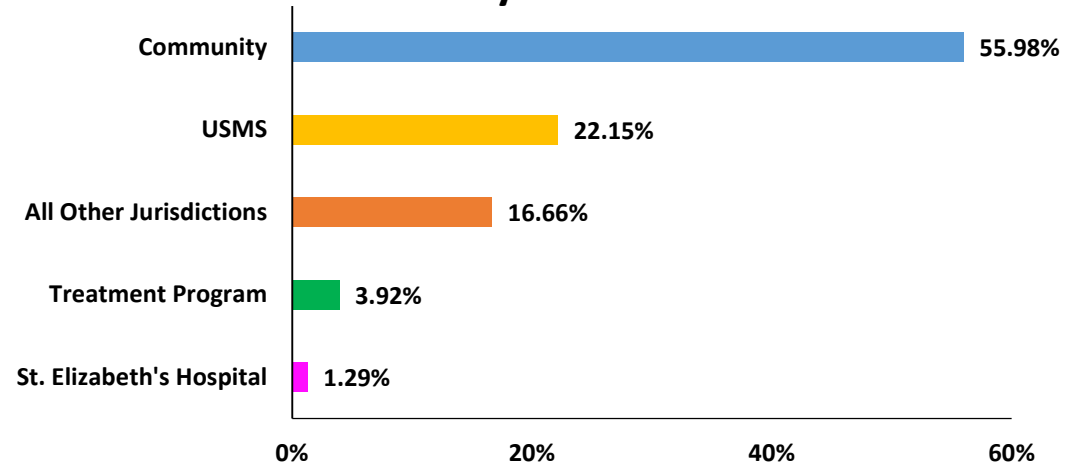

# CY 2024 Releases by LOS for Men

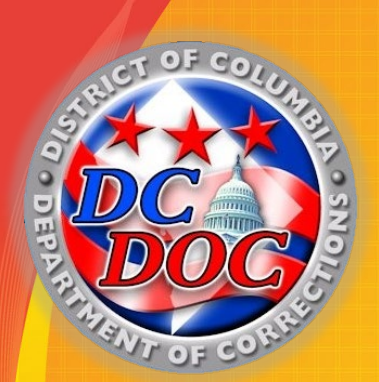

The average length of stay to release for men was 95.46 days. Half of men who were released stayed fewer than 25.61 days, the median length of stay to release.

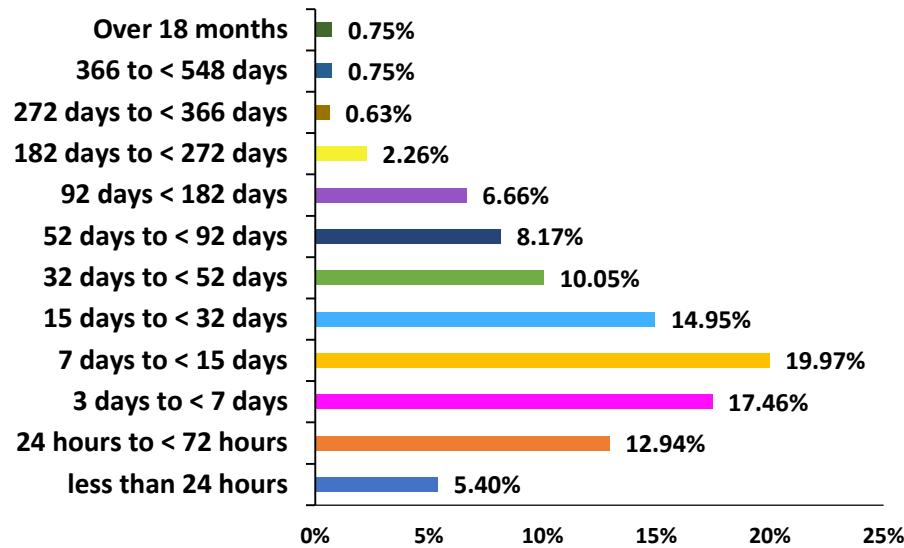

Of men who were released, about 56% were released to the community. Another 21.15% were removed by the USMS to Northern Neck, USMS to federal facilities, or USMS GB. About 16.66% percent were removed by all other jurisdictions and another 5.2% were released to St. Elizabeth's Hospital or treatment programs.

## Custody of Release Men CY 2024

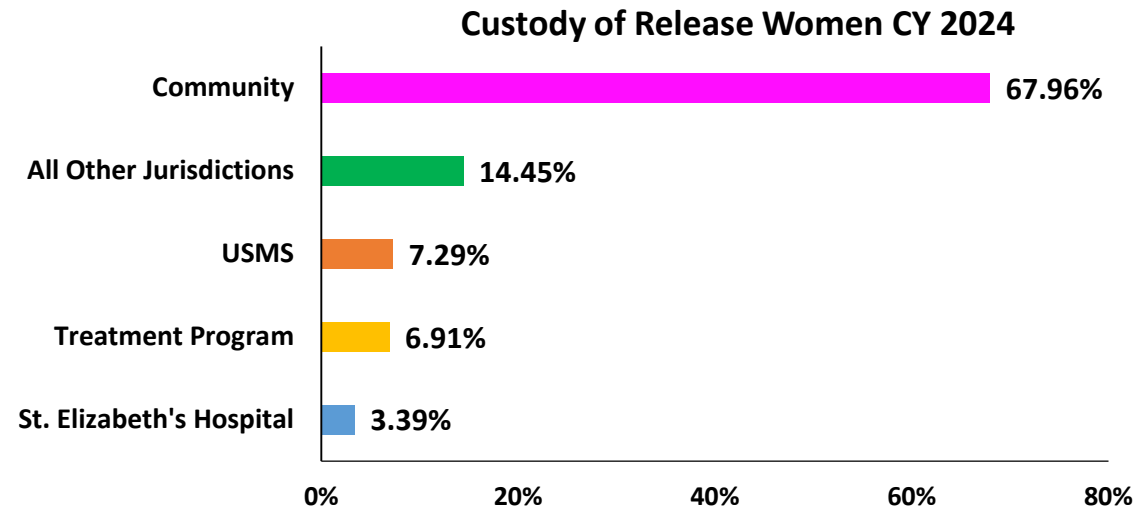

# CY 2024 Releases by LOS for Women

The average length of stay to release was 40 days for women. Half of all women who were released stayed fewer than 11.7 days, the median length of stay.

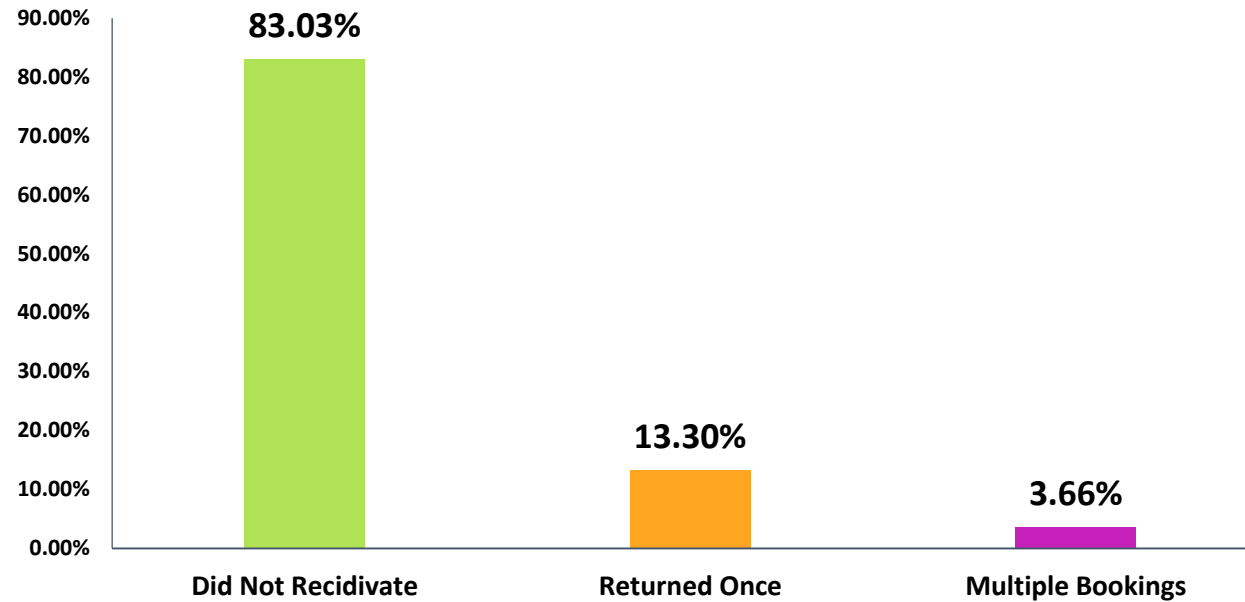

About 68% of women were released to the community, another 10.3% were released to St. Elizabeth's Hospital or treatment programs. 7.3% were removed by USMS, USMS GB or to Northern Neck by the USMS. The remaining 14.45% were released to other jurisdictions.

# FY 2024 Reincarceration Rate

**Recidivism Rate for DOC Intakes FY2024**  
Based on intake data from  
October 1, 2023 to September 30, 2024

Recidivism in the pre-COVID-19 era cannot be compared to that in current times because the composition of the DOC population and its length of stay have significantly changed. These reflect changes in practices across the criminal justice system that have been implemented in response to COVID-19.
