Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent onsite, and observations made during the site-review, including a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The PREA Audit of the Central Detention Facility was conducted from July 10-12, 2017.

This auditor wishes to extend his appreciation to Warden Lennard Johnson, Mrs. Cicily Harrington, and the entire Central Detention Facility's staff for the professionalism they demonstrated throughout the audit and for their hospitality they showed this auditor.

Prior to the onsite audit, the facility provided to this auditor all policies, procedures, and facility documentation related to each standard for review. This auditor and the PREA Coordinator maintained ongoing communication for several weeks prior to the audit to ensure preparation for the onsite visit. The facility provided this auditor a list of inmate names sorted by housing assignments, disabilities, and special designations, as well as a list of facility staff names. These lists were used by this auditor to compile, at random, a sampling of inmates and staff to be interviewed during the onsite visit.

Following the entrance meeting, on July 10, 2017, this auditor was given a very thorough tour of the facility. At the conclusion of the tour, this auditor began interviews and reviews of investigative files and other documents. At least two offenders from each housing unit were selected to be interviewed. Those interviewed were selected by this auditor, from a current daily listing of all the offenders in the facility. In addition, offenders who were identified as being in a designated group (i.e., disabled, limited English speaking ability, gender bias, or who had reported a sexual abuse, etc.) were selected to be interviewed. Out of a total of twenty-three offenders, nineteen inmates were called to be interviewed with four offenders refusing to be interviewed once they arrived at the private interview room and explained what the purpose of the audit.

A total of twenty-seven staff were randomly selected by this auditor prior to the beginning of the onsite audit. Correctional officers and other identified specialized staff were interviewed, including the Director's designee, the Warden, the PREA Coordinator, the facility Investigator, multiple first responders (program volunteers), health care providers, and mental health professionals. This auditor also conducted a telephone interviews with the Metropolitan Special Investigation Unit who investigates all criminal allegations within the facility.

This auditor was very impressed by how knowledgeable the correctional officers and other staff were about PREA, to include their initial response, evidence and data collection processes. When the onsite visit was completed, this auditor conducted an exit meeting to review the outcome of the onsite tour and obtain minor clarification, which was provided prior to leaving the facility. This auditor did give a preliminary overview of the audit and thanked the Central Detention Facility staff for their hard work and commitment to the Prison Rape Elimination Act. It was apparent the outcome was successful due to an enhanced team effort.

The electronic file organization was excellent, allowing for a complete and accurate review of policies and agency documents. Compliance with each standard was determined by reviewing agency policy along with agency documentation/proofs of compliance, along with the PREA Compliance Audit Instrument Checklist of Policies/Procedures and other documents.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Central Detention Facility (DCCDF) is located in Southeast DC at 1901 D Street, SE. The current facility was opened in 1976. In July 2002, the United States District Court for the District of Columbia vacated the population capacity limit at the DC Jail imposed in the 1985 Campbell v. McGruder court ruling. In October 2007, the Executive Administration established a population capacity at the jail of 2,164. This number is within the ranges recommended by two consultants hired independently by the Council and the Department of Corrections leadership during 2004 and supports the agency's compliance with the Jail Improvement Act of 2003.

The majority of the inmates housed in the Central Detention Facility are awaiting adjudication of cases or are sentenced for misdemeanor offenses. As a result of the National Capital Revitalization and Self-Government Improvement Act of 1997, sentenced felons are transferred to the Federal Bureau of Prisons.

At the time of the audit, the facility held approximately 1,336 offenders. The facility is comprised of one building and fifteen housing units in addition to the intake and release areas. The facility completed the construction of its new modern Intake Processing Center in the Fall of 2014 which now provides a more consistent and efficient intake flow that captures all of the required screening processes, including the PREA screening and orientation.

The Central Detention Facility administration and staff should be very proud of their building, as it was clean, quiet and appeared in excellent operational order.

- Does Not Meet Standard** (*Requires Corrective Action*)

Overall Compliance Determination Narrative

The D.C. Central Detention Facility (CDF) staff follows the written PREA policy, which mandates zero tolerance of all forms of sexual abuse and sexual harassment. Policy 3350.2H outlines the agency's approach to preventing, detecting, and responding to sexual abuse and sexual harassment. The facility demonstrated compliance with this specific part of the standard.

The agency employs an upper-level, agency-wide PREA Coordinator. 3350-2H page 10 of 43, outlines the responsibilities of the PREA Coordinator. Mrs. Cicily Harrington was recently appointed the new PREA Coordinator for the DCCDF, when Mrs. Prechelle Shannon was promoted within the administration of the DCCDF. The facility provided this auditor with an organizational chart indicating the PREA Coordinator position as an upper-level facility wide position. Mrs. Harrington was very knowledgeable of the PREA standards and actively assists the facility in maintaining compliance. Mrs. Harrington demonstrated her authority to develop, implement, and oversee PREA compliance measures prior to, during and well after the audit process is completed. During this auditor's interviews with the PREA Coordinator, Mrs. Harrington, it was determined there was sufficient time and authority to coordinate the facility's efforts to comply with the PREA standards. The facility demonstrated compliance with this part of the standard.

At the time of the prescribed audit schedule, the DCCDF did not operate more than one facility or non-connected building requiring a separate and additional PREA Manager. This auditor found this part of the standard as "Not Applicable".

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Overall Compliance Determination Narrative

The D.C. Department of Corrections provided this auditor, through the DCCDF PREA Coordinator, a very detailed and recently reviewed Staffing Plan which indicated best efforts and best practices to comply with the PREA standards, specific to the plan.

The facility has a Staffing Plan along with the annual memorandums demonstrating the established criteria found in the PREA standard to include the physical layout of the facility, composition of the residents housed, the prevalence of substantiated and unsubstantiated incidents of sexual abuse, and any other relevant factors required.

The facility has policies and procedures in place to ensure all reviews, modifications to the plan, and staffing allocation justifications to backfill vacant duty posts, are documented and submitted to the Warden outlining the reason(s) for the deviation.

The Staffing Plan is reviewed annually by the PREA Coordinator and specialists assigned to such task to ensure that proper security observations are necessary and operational, in order to comply with the PREA standards. This review is then submitted to the Warden of the facility for approval of any recommendations made which would include changes to the policies and procedures, physical plant, video monitoring, or staffing levels. The last staffing plan assessment was completed on June 2016.

Based on the provided post documentation, staff interviews, video review, and physical onsite observation, the staff demonstrated compliance of the standard when intermediate-level or higher-level supervisors were required to conduct unannounced rounds, during all observed shifts by this auditor. The facility demonstrated compliance with these specific parts of the standard during the audit.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Overall Compliance Determination Narrative

During the time of the prescribed audit, the DCCDF did not house youthful offenders in the facility. This auditor did however discuss the probability, with the PREA Coordinator during the interviews, physical onsite tour, and review of policy 3350.2H, and determined the facility could place all youthful inmates in designated areas that separate them from sight, sound, and physical contact with any adult inmates. Previously, those inmates found to meet the “Youthful Offender” criteria during the intake process, would complete the process into the facility’s management system and then relocate them to another facility. The new Intake Processing Center does have the capability of sight and sound separation from the adult section of the facility, if required. This auditor determined compliance if this situation would to have occurred, but is “Not Applicable” during the time of the audit.

Standard 115.15: Limits to cross-gender viewing and searches

 Yes No

115.15 (b)

- Does the facility always refrain from conducting cross-gender pat-down searches of female inmates in non-exigent circumstances? (N/A here for facilities with less than 50 inmates before August 20, 2017.) Yes No NA

115.15 (c)

- Does the facility document all cross-gender strip searches and cross-gender visual body cavity searches? Yes No
- Does the facility document all cross-gender pat-down searches of female inmates?
 Yes No

115.15 (d)

- Does the facility implement a policy and practice that enables inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks? Yes No

115.15 (f)

- Does the facility/agency train security staff in how to conduct cross-gender pat down searches in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs? Yes No
- Does the facility/agency train security staff in how to conduct searches of transgender and intersex inmates in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs? Yes No

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Overall Compliance Determination Narrative

The DCCDF PREA policy, 3350.2H outlines offender searches and observations including searches of transgender and intersex offenders. This auditor's documentation review, interviews with staff and inmates determined cross gender strip searches are prohibited except in exigent circumstances and must be documented and forwarded to the facility's administration. During this audit period, there were no documented cross-gender pat-downs or searches reported in the past twelve months, therefore complying with these parts of the standard.

This auditor determined through the physical observation and interviews of staff and inmates, that the facility practices a policy that enables inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Upon review of the annual training records, it is evident that the facility educates security staff in how to conduct cross-gender pat down searches in a professional and respectful manner.

The facility demonstrated compliance with these parts of the standard, during this audit.

Overall Compliance Determination Narrative

The DCCDF policy mandates that the Central Detention Facility does not conduct cross gender strip searches. Body cavity searches are only done by medically trained professionals per program statement 3350. The auditor observed male and female staff announce their presence when they entering cross gender housing units. Staff and inmates interviewed confirmed all staff are announced.

Program statement 5009.2D states, a visual, x-ray, manual, or instrument inspection of a body orifice, including an anal, vaginal, or alimentary (digestive tract) cavity may be conducted only by a qualified health care personnel in private upon written approval of the Warden or higher authority and only when there is reasonable belief that an inmate is concealing contraband in one or more of these areas of his/her body and it is an immediate threat to the health and safety of the inmate as determined by a medical doctor. Policy and procedures are implemented to enable inmates to shower, perform bodily functions, and change clothes without non-medical staff observing their genitalia or buttocks.

The Central Facility does not conduct cross gender strip searches. Body cavity searches are only done by medically trained professionals per program statement 5009.2D. The auditor observed female staff announce presence when they enter the housing unit. Staff and inmates interviewed confirmed female staff are announced.

Policy and procedures are implemented to enable inmates to shower, perform bodily functions, and change clothes without non-medical staff observing their genitalia or buttocks.

According to the IPC Manual:

“If the inmate’s physical sex cannot be determined, and/or the inmate refuses to cooperate, staff shall notify a supervisor immediately. The supervisor shall have the inmate escorted to the IPC medical unit for a physical examination and gender determination. Any inmate refusing to receive a complete physical examination will be placed in protective custody.”

The final standard does include additional safeguards to protect trans-gender and intersex inmates from examinations solely to determine genital status. Such targeted examinations will rarely be warranted, as the information can be gathered without the need for a targeted examination of a person’s genitals. Accordingly, the final standard states that, if an inmate’s genital status is unknown, a facility should attempt to gain the information by speaking with the inmate or by reviewing medical records. In the rare circumstances where a facility remains unable to determine an inmate’s genital status, the Department recognizes that the facility may have to conduct a medical examination. Any such medical examination, however, should be conducted as part of a regular medical examination or screening that is required of or offered to all inmates. Trans-gender and intersex inmates should not be stigmatized by being singled out for specific genital examinations.

The facility takes appropriate steps to ensure inmates with disabilities and inmates with limited English proficiency have an opportunity to participate in and benefit from the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment. PREA handouts and inmate handbooks in English and Spanish. The agency also has a contract for other language interpretations and utilizes the services as warranted. Contract with Language Access Program for phone interpreters. There are some staff who speak Spanish and both inmates and staff stated inmates are not used as interpreters for issues with sexual abuse and sexual harassment.

Instructions for Overall Compliance Determination Narrative

Randomly selected inmate files were reviewed for compliance. Handbook had a PREA Section for the inmates to review and acknowledge receipt. Inmates interviewed acknowledged having received the information regarding PREA at intake and from other sources throughout their stay. It should also be noted that CDF actually receive the inmates AFTER they have been processed into the Central Cell Booking (CCB). The inmates receive the basic PREA notification and awareness of Zero-Tolerance while at the CCB. Once the inmates are committed to the CDF, they receive a more in-depth education on PREA.

CCB's policies and electronic proof of notification to CDF regarding risk victimization were provided as verification of this practice. The electronic notification is embedded in the classifications window of the JACCS system. During intake at CDF, inmates are provided information through a PREA pamphlet and inmate rule book (both available in English and Spanish) that explains the agencies zero tolerance policy regarding sexual abuse and sexual harassment; and how to report such incidents.

During facility orientation, inmates receive additional training which consists of a video and additional information which expands on the previous information provided in the pamphlet and handbook. Posters and inmate handbooks are provided to inmates or posted in the housing units in formats accessible to all inmates. During the tour and interviews a majority of the inmates acknowledged the information being provided upon arrival and orientation. The inmates are familiar with the agency zero tolerance policy.

This auditor notes that among the inmates willing to be interviewed, when asked, each inmate advised on how safe they felt in the facility and that most staff were approachable and felt confident their issue would be addressed appropriately.

Instructions for Overall Compliance Determination Narrative

The facility uses the screening information to determine housing, bed, work, education, and program assignment with the goal of keeping inmates at high risks of being sexually victimized separate from those at high risks of being sexually abusive. To date only one has been screened for being high risk to be sexually victimized and several have been identified for being high risk of being sexually abusive.

The inmates are housed in different housing units. Housing and program assignments are done on a case by case basis.

The agency has a Trans-gender Committee as well as an Administrative Housing Review that meets as needed and via email to discuss cases prior to housing assignment. Inmates are consulted to determine where they should be housed to include consideration of the inmate's gender expression.

Once the inmate has requested consideration for their gender expression, they are granted a hearing with the Trans-gender Housing Committee.
