Audit Findings

Audit Narrative

The audit of the Fairview halfway house was conducted on August 14th, 2018 by Ian Rachal, Department of Justice certified PREA auditor. Prior to the commencement of the on-site audit, supporting documentation was delivered to this auditor by agency officials for review. Documentation reviewed included agency and facility forms, policies, training curricula, educational materials, and other PREA-related documents demonstrating compliance with the PREA standards.

Upon arrival to the facility, an introductory meeting was held with facility leadership to answer questions and provide expectations for the audit process. I was afforded the use of a private room to interview facility personnel.

The on-site audit of the Fairview facility lasted for one day. A comprehensive tour was conducted of the facility physical plant by this auditor, escorted by facility and agency officials. Observed was the facility configuration, location of cameras and mirrors, staff supervision of residents, room layout including shower/toilet areas, placement of posters and PREA informational resources, security monitoring, resident entrance and search procedures, and resident programming. Private showers and bathrooms were provided for each resident.

The tour of the compound commenced with a visit to the resident living areas, resident program areas, and resident food service area. Each area was supervised by security personnel. There were staff members present in all areas with cameras to assist in supervisory efforts, mitigating any potential blind spots.

Facility personnel who were interviewed showed a basic understanding of their roles and responsibilities in ensuring residents assigned to the DCDOC are protected from all forms of sexual abuse and harassment. Resident phones were checked to ensure reporting capabilities.

Facility Characteristics

The Fairview halfway house is a detached brick structure with three levels. The facility has a sixty-bed capacity and is operated by sixteen full-time staff members. The resident's sleeping quarters are located on the first and second floors. The first floor consists of seven rooms for resident sleeping quarters, one resident bathroom, three toilet stalls and four showers, one handicapped bathroom. The second floor consists of seven rooms for sleeping, one resident bathroom. The third floor (Basement level) is used as a multipurpose room, dining room, and computer lab.

The Case Managers Office, Charge of Quarters Office and Assistant Directors Office is located on the first floor. The Administrative Offices are on the second floor. There is an eight-camera video surveillance system that is monitored 24/7 throughout the facility with the exception of the resident's sleeping quarters. There are an additional five cameras monitoring various blind spots around the building. Fairview only houses adult female residents.

Summary of Audit Findings

All Fairview staff interviewed displayed basic knowledge of PREA responsibilities and could articulate the meaning of DCDOC's zero tolerance policy. Fairview staff understood their roles and responsibilities in the prevention, reporting and response to sexual abuse and sexual harassment. Fairview staff articulated reporting mechanisms for residents and staff to use to report sexual abuse or sexual harassment. All staff were well trained on the PREA first responder's protocols and could clearly articulate the steps they would follow if they were the first responder to an incident.

Residents interviewed responded that personnel treated them with respect. Residents were well-versed in DCDOC's reporting mechanisms and efforts to protect them from sexual abuse and harassment. DCDOC has numerous mechanisms in place for residents, their families, and the general public to report allegations and receive information in regard to PREA and receive assistance for underlying issues of sexual victimization or predatory behaviors.

This auditor was allowed to speak freely with all offenders and staff during my visit and was treated in a very hospitable fashion. Facility leadership was responsive and knowledgeable. Line staff took great pride in their areas of responsibility and were all trained in regard to the requirements of PREA.

Instructions for Overall Compliance Determination Narrative

All residents are assessed during an intake screening for risk of being sexually abused by other residents or sexually abusive toward other residents. Intake screenings take place within 72 hours of arrival at Fairview. DCDOC uses an objective screening instrument.

The intake screening considers, at a minimum, the following criteria to assess residents for risk of sexual victimization:

- (1) Whether the resident has a mental, physical, or developmental disability;
- (2) The age of the resident;
- (3) The physical build of the resident;
- (4) Whether the resident has previously been incarcerated;
- (5) Whether the resident's criminal history is exclusively nonviolent;
- (6) Whether the resident has prior convictions for sex offenses against an adult or child;

(7) Whether the resident is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming;

(8) Whether the resident has previously experienced sexual victimization;

(9) The resident's own perception of vulnerability; and

(10) Whether the resident is detained solely for civil immigration purposes.

The initial screening considers prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse, as known to DCDOC, in assessing residents for risk of being sexually abusive.

An resident's risk level is reassessed when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the resident's risk of sexual victimization or abusiveness.

Residents are asked if they wish to divulge their sexual orientation in addition to the reviewing personnel's perception. Within 30 days from the resident's arrival at Fairview, DCDOC reassesses all resident's risk of victimization or abusiveness based upon any additional, relevant information received by DCDOC since the intake screening.

Residents are not disciplined for refusing to answer, or for not disclosing complete information in response to, questions asked.

DCDOC has implemented appropriate controls on the dissemination within DCDOC of responses to questions asked pursuant to this standard in order to ensure that sensitive information is not exploited to the resident's detriment by staff or other residents. All files are controlled by Classification personnel behind locked doors and maintained in each residents Classification files.

Instructions for Overall Compliance Determination Narrative

DCDOC uses information from the risk screening to decide housing, bed, work, education, and program assignments with the goal of keeping separate those residents at high risk of being sexually victimized from those at high risk of being sexually abusive.

DCDOC makes individualized determinations about how to ensure the safety of each resident. In deciding housing and programming for a transgender or intersex resident DCDOC considers on a case-by-case basis whether the placement would ensure the resident's health and safety, and whether the placement would present management or security problems.

Placement and programming assignments for each transgender or intersex resident is reassessed at least twice each year to review any threats to safety experienced by the resident.

A transgender or intersex resident's own views with respect to his or her own safety are given serious consideration.

DCDOC does not place lesbian, gay, bisexual, transgender, or intersex residents in dedicated facilities, units, or wings solely on the basis of such identification or status.

Instructions for Overall Compliance Determination Narrative

DCDOC residents are subject to disciplinary sanctions pursuant to a formal disciplinary process following an administrative finding that the resident engaged in resident-on-resident sexual abuse or following a criminal finding of guilt for resident-on-resident sexual abuse.

Sanctions are commensurate with the nature and circumstances of the abuse committed, the resident's disciplinary history, and the sanctions imposed for comparable offenses by other residents with similar histories.

The disciplinary process considers whether a resident's mental disabilities or mental illness contributed to his or her behavior when determining what type of sanction, if any, should be imposed.

DCDOC disciplines a resident for sexual contact with staff only upon a finding that the staff member did not consent to such contact.

At DCDOC, a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred is not constituted as falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation.
